Mission Statement

Sweet Home Police Department Organizational Structure

Letter from the Chief

February 1, 2012

To The Mayor, City Council and to the citizens of Sweet Home:

This document represents the Sweet Home Police Department's 2011 Annual Report. This report provides a brief quantitative retrospect of the year's activities, including historical prospective. In addition to this written document, our report can also be found on the internet at www.ci.sweet-home.or.us.

2011 turned out to be a very challenging year for the department. Early in 2011 we reluctantly ended our School Resource Officer program due to lack of partnership funding from the Sweet Home School District. This program had been an important part of our juvenile outreach efforts to keep kids from becoming future burdens to the Criminal Justice System. The elimination of that program reduced our police officer staff from sixteen officers down to fifteen. The ranks had already reduced in 2009 from an authorized staff of seventeen.

In October we learned from Linn County of devastating revenue losses due to a variety of tax related issues. Immediate steps had to be taken to reduce expenditures within the department. An equivalent of 2.5 FTEs were cut from the police department over the next 60 days, including another police officer position. To further aggravate the situation, three junior officers, concerned about layoffs, accepted an employment offer from nearby Lebanon where funding is apparently far more stable.

As we ended 2011, our officer ranks are down to only 11 sworn personnel, a 34% decrease from previously authorized levels. The SHPD staff has responded professionally to carry the full call load. Job duties have been reorganized and supervisory staff are assisting in covering shift assignments. We are hopeful of a more stable financial picture for 2012 and rebuilding the officer ranks has already begun.

As always, we welcome your comments and suggestions. It is through feedback that we are challenged to continually improve our services. Please feel free to call me at the office or contact us via e-mail at shpd@ci.sweet-home.or.us.

Sincerely,

A handwritten signature in black ink, appearing to read "R. Burford".

Robert H. Burford
Chief of Police

SHPD in the Community

We, police department personnel and families, are your neighbors, fellow parents, serve on community boards and sit right next to you in community organizations.

We belong to and serve in:

American Cancer Society
Blue Knights Law Enforcement Motorcycle Club
Boy Scouts of America
Business and Professional Women's Association
Community Singing Christmas Tree
Elks Club
FBI National Academy
FBI National Associates
Feeding America
Girl Scouts

Walk for the Cause 2011 ~ SHPD Participants

Hiring Process

The Sweet Home Police Department is dedicated to providing quality, professional police services to the community. That dedication begins with fielding high-quality, professional employees who are dedicated to this community. With this in mind, the department adheres to a stringent and lengthy hiring process.

During the hiring process, applications are evaluated based on experience, training and skills presented in the employment application. After an initial review of the applications, qualified applicants are invited to continue with the selection process.

The first phase involves the applicant successfully passing the Oregon Physical Abilities Test (ORPAT). The ORPAT has been standardized by the Oregon Department of Public Safety, Standards and Training (DPSST) and has to be completed within a specified time.

The next phase involves the applicant successfully passing the Police Officer Selection Test (POST). The POST is an entry-level basic skills test that helps the Sweet Home Police Department select the most qualified applicants by ensuring that applicants possess the basic cognitive skills necessary to successfully perform the job. The POST is a valid, job-related test designed specifically for law enforcement use, which measures these basic skills: Arithmetic, Reading Comprehension, Grammar and Incident Report Writing.

The final phase of the selection process is an Assessment Center. The Assessment Center is a half day process involving an interview board, a hand-written project, and various other projects which allow the selection committee to observe the applicants skills interacting with the police. The top applicants are invited to continue the process through a background investigation. The background investigation is extremely comprehensive. The background investigator talks to people that have had contact with the applicant throughout their life. The background investigator looks into personal history, academic history, work history, relationship history, drug use history, criminal history, credit history, and to anything that help determine the suitability type of employee you would be for the Sweet Home Police Department.

The top applicant is then offered a conditional job before moving into additional evaluation which consists of a psychological examination, a medical examination and a drug test.

Patrol Services Division

Considered by many to be the backbone of the organization, the Patrol Division is the largest and most visible unit of the Sweet Home Police Department. Patrol Officers are on duty twenty four hours a day, seven days a week, and are usually the first to arrive at the scenes of accidents, crimes, or disasters.

The Patrol Division is led by two patrol sergeants, under the supervision of the Chief of Police. There are 9 Patrol Officers on the roads doing their part to keep our community safe.

Patrol Officers provide uniformed law enforcement services for criminal and non-criminal activities. These officers provide initial investigation services on nearly all criminal activity. Patrol Officers conduct investigations, enforce traffic laws and city ordinances, provide citizen assistance, and patrol our community to prevent criminal activities and neighborhood problems. During 2011 the police department logged in 8487 calls for service. The calls ranged from reports of thefts, assaults, criminal mischief, welfare checks, traffic complaints, drug activity and other suspicious activity. When an officer handles a call for service they must document what the call for service was about, the actions that they took, and the disposition of the call. Much of an officer's time is spent on the documentation of their activities and the events that oc-

curred throughout their shifts. The officers must also document all information pertaining to follow-up investigations they are conducting.

The Patrol Division cleared 845 calls for service by making an arrest. The role of the Sweet Home Police Department and its officers does not end after an arrest is made. Officers and department employees continue to work closely with prosecuting attorneys for a successful resolution.

A normal patrol officer schedule consists of 12-hour shifts. However, due to the nature of police work, more often than not, the officer is required to be in court or work on an investigation after their regular shift has ended. This further illustrates that members of the Sweet Home Police Department are dedicated to making our community a better and safer place to live.

Due to staff reductions, we no longer have officers assigned specifically to the Traffic Unit.

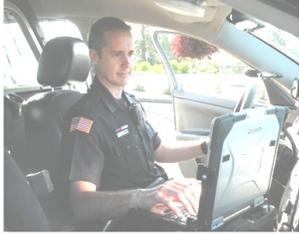

Patrol is responsible for conducting traffic enforcement with the intent to correct problem areas and seek compliance from drivers. The entire division wrote 950 traffic citations.

There were 75 motor vehicle accidents reported in 2011.

There were 62 vehicles impounded during 2011 for a variety of reasons. DUII enforcement resulted in 36 arrests during the year.

There were 70 citations issued for No Operators License and there were 199 citations issued for driving without insurance.

Patrol Car Overview

MDT

On average, 20% of an officer's shift is spent in the office doing time consuming but necessary paperwork. With the SHPD MDT system, virtually everything can be done from the vehicle.

As a law enforcement tool, the MDT's give the officers the ability to review any previous investigative report, crime scene photographs and mug shots. With access to the state and national databases, officers can quickly check for warrants on persons or determine if vehicles or property are stolen.

Calls sent to the officers that are sensitive in nature do not need to be broadcast on the radio so that anyone with a scanner can hear.

The terminals are physically locked within each vehicle and require three levels of security individual to the officer to access. No personal information is stored on the MDT's. Even if one were stolen there is no data at risk.

SHPD MDTs can....

- Run License plates (in state or out) thru DMV
- Run Driver Registrations thru state/federal databases
- Retrieve driver local database or DMV photos for identity verification
- Lookup Names to include prior Contacts, aliases, wants, etc
- Screen toggle for Daylight/Nighttime Visibility considerations
- Touch screen laptop buttons; no mouse needed
- Instant Messaging between cars/ dispatch (without radio transmissions)
- Dispatch status screen for current calls/ unit status
- Complete Incident screen for report writing in cars (not in department)
- Mobile lookup/entry for Tickets, Property, Animal, Business Locator, etc
- Sound prompts for incoming information
- The SHPD MDT system is available worldwide, anywhere cell coverage is provided.

Many systems are limited to the city area.

Future plans:

Generating of electronic traffic citations via the computer. Data is obtained from the driver's license record, the citation is printed out in the car and the information is instantly transferred to the court for processing.

In car Technology

Some Sweet Home patrol cars have been equipped with mobile video systems. After evaluating several products over a number of years, the department began installing the "Digital Ally" system last summer. Our hope is to eventually equip all the marked patrol units with this system.

The camera and monitor are both contained in a replacement rearview mirror unit that features both a forward facing camera and a rear facing camera that is capable of capturing the actions of the driver, as well as any prisoner in the back seat. The system can be activated manually by the Officer or will self activate under several circumstances, including the activation of the vehicle's emergency equipment. In the event a patrol vehicle is involved in a crash, the system will record the moments leading up to the crash as well as the event itself.

The prosecutors and judges speak very highly of this system, which is also being installed by other Linn County law enforcement agencies.

Communications & Records Division

Communications:

Sweet Home Police Department operates a secondary public safety answering point (PSAP) dispatch center and receives transferred 911 emergency calls from Linn County 911 Center. As civilian employees of the Police Department, dispatchers work in the Emergency Communications Center and often serve as a citizen's first point of contact with the Department.

Sweet Home Police Dispatchers work with police officers on a daily basis in solving crisis

situations, assisting citizens and fellow Department members and ensuring that communication between citizens and officers in the field flows effi-

ciently and effectively. Their responsibility and service extends beyond the mere conveyance of information. Dispatchers receive extensive training in a very technical field of communications. They anticipate the information needs of field personnel and make such data immediately available to improve the quality of service provided by the department and greatly increase the safety factor for the officers in the field.

Sweet Home Police dispatchers respond to requests for information or police services received through 911 emergency calls and routine telephone calls as well as from citizens who come to police department lobby. These requests can range from emergency situations needing immediate police service, such as a report of a burglary in progress, to providing a citizen with directions to a City business establishment.

Sweet Home Police Dispatchers provide officers with a wide variety of support services such as conducting wanted person checks by computer through the state and national law enforcement computer networks, conducting

driver's license and vehicle registration checks by computer with the Oregon Department of Transportation DMV, communicating with other area police communications centers to obtain necessary information and countless other needed and vital services.

The Sweet Home Police Department utilizes a computer aided dispatch system to facilitate communications, simplify reporting in the field and maintaining required records. Police dispatchers also process requests from other police departments and government agencies.

Our dispatch center operates 24 hours a day, seven days a week throughout the year and is staffed by 5.5 dispatchers and 1 supervisor. For the year of 2010 dispatch processed 16,478 service transactions.

Funding for maintaining the secondary PSAP comes from the Public Safety Levy and the General Fund. The City gives all their share of the dollars from the State 911-telephone tax to Linn County for the Linn County 911 Center

Records:

The record section performs numerous vital functions with regard to the storage, release and management of law enforcement information. The person assigned to this position has a multitude of responsibilities, including disseminating police reports, conducting criminal background checks, registering sexual offenders, expunging or sealing arrest and conviction records upon notification by the courts, validating all police reports and processing all business and residential alarm permits.

Investigations

The Sweet Home Police Department has detectives who specialize in the investigation of burglary, auto theft, and felony property theft cases and drug crimes. The detectives are responsible for the recovery of hundreds of thousands of dollars in drugs, and stolen or damaged property each year. Detective Ogden is currently assigned to investigate narcotic crimes.

The reason we have detectives that work property crimes and drug crimes together is because they are closely related.

It is common for property crime offenders to be addicted to methamphetamine, which prompts them to commit other crimes that will financially support a drug habit.

These same offenders are frequently tied to fraud and identity theft offenders.

The Sweet Home Police Department served many property crime and/or drug crime related search warrants in 2011. The drugs that were seized at these search warrants included: marijuana, methamphetamine, MDMA (Ecstasy), and prescription pills. These search warrants do not include the numerous ones that we assist other Linn County law enforcement agencies with that can somehow be tied to suspects that live in the Sweet Home area.

Detective Pichardo is assigned to the Detective Unit as a General Detective who handles various investigations such as Burglary, Assault, Theft, Fraud, Drug Investigations and white collar crimes such as Embezzlement. However, Detective Pichardo's specific area of expertise is in Child Abuse/Neglect, Rape and Sexual Abuse crimes. In 2011 Detective Pichardo was assigned 157 cases. Detective Pichardo is also a member of the Linn County Multi-Disciplinary Team which is organized under the Linn County District Attorney's Office and is mandated by state law.

The team consists of members of each law enforcement agency in Linn County, representatives of the DHS, Linn County Juvenile Office, Linn County Mental Health and Parole and Probation. The team meets once a week to review the cases of children who have been victims of outside crime or have become victimized because of adult criminal activity in the home. The team's goal is to prevent further trauma to the child who may be forgotten after a case has been adjudicated or while a case is waiting to go to trial. Participating members of the team believe this program is effective and of great value to the citizens of Linn County. Detective Pichardo also regularly participates in community forums and events to help educate the public on Online Safety, Identity Theft and Drug Awareness.

Training

The Oregon Department of Public Safety Standards and Training (DPSST) sets mandatory training requirements for active police officer training and the maintenance of officer certification.

Sweet Home Police Department officers and staff are able to meet these requirements by attending a minimum of 40 hours of annual in-service training. In-house certified instructors provide training in firearms, use of force, defensive tactics, Taser operation and Police Bicycle Officer. Department members assigned to SWAT, MAAIT and Detectives receive specialized training throughout the year.

The Sweet Home Police Department has officers that have individual expertise in Fingerprinting and Latent Print Identification, Child Abuse Investigations, Hostage Negotiations Techniques, Motor Vehicle Accident Reconstruction and Drug Lab Identification, just to name a few.

SWAT Training

FIREARMS

The Sweet Home Police Department's Firearms Training Division is headed by Lead Instructor and Range Master, Timothy Trahan.

Officer Trahan is a State Certified Firearms Instructor and has led the program since 2007. Since that time he has integrated the real life experiences of veteran Officers to create a realistic approach to Police firearms training. Sergeant Jason Van Eck and Officer Brian Stevens are also State Certified Instructors and assist at the range and offer valuable insight to the training division.

The Sweet Home Police Department Firearms Training Program is based on the Oregon Department of Public Safety, Standards and Training (DPSST) Firearms training model. The qualification standards set by DPSST are the basis for our training program.

All Sweet Home Police Officers are given the opportunity for firearms training once every month, either on a volunteer or mandatory training basis.

We strive to create a fact based, realistic, problem solving approach to firearms training, all while following our policy guidelines which are based on current United States Supreme Court case law and Law Enforcement common practices and standards.

Property & Evidence

Evidence Room

The primary duties of the Property & Evidence and Custodian are to maintain the chain of custody for property and evidence that are taken into the Sweet Home Police Department. The items are scanned and entered into the Records Management System (RMS) database and tracked through a bar coding system that has been in place since 2009. In 2011, over 5150 pieces of evidence were processed into the evidence room.

Approximately, 75 percent of all property taken into custody is evidence required for criminal cases.

The rest of the property include the safekeeping of found property, arrestees' property, property no longer needed as evidence, contraband, and property seized for forfeitures. Property received at SHPD also includes, but not limited to; cash, jewelry, firearms, narcotics, and general property of every description.

The Property & Evidence room is comprised of 1 civilian employee and overseen by Sergeant Van Eck & Chief Bob Burford. The property & evidence custodian coordinates checking items out to court and to the forensic laboratories, returning items to owners, disposal of court ordered items and auctioning of unneeded or unclaimed property.

All property received into and exiting the property room is subject to strict chain of custody constraints. Property that can be legally returned to its rightful owner is done so in a timely manner. Contraband is destroyed when it is no longer needed for a criminal case. Unclaimed general property and vehicles are disposed of through public auctions, disposed of according to Oregon statute, or retained for forfeiture.

The evidence custodian also responded on location to several cases this year, to provide on-scene assistance during execution of search warrants. This allows for direct chain of custody of evidence and speeds the processing at the crime scene.

Drug Take Back Program

2011 marked another successful year with our Drug Take Back program. Residents are able to bring unused, unwanted, outdated or unknown over the counter and prescription drugs to the department for safe disposal. We implemented this program in June 2010 at the Jim Bean Safety Fair and took in 36 pounds of medications for destruction. We continue to have residents drop off their medications to the department. Generous donations allowed us to place a receptacle in our lobby for residents to deposit their medications 24 hours a day. We collected 47 pounds of medications in 2011.

The medications are taken by the evidence custodian to a facility in Brooks, Oregon for destruction by incineration.

Youth Services

PEER COURT

The Sweet Home Peer Court Program is an opportunity for first or second time juvenile offenders to avoid formal prosecution by appearing before a court of their peers. The program uses Restorative Justice Principles and offers Peer Court Diversion and Sanctions to juveniles who admit their guilt. The Linn County program was in full swing in 2007; however, lack of County funding soon ended Peer Court in Sweet Home. Chief Burford saw the positive results of Peer Court and reestablished a local Sweet Home Peer Court in the Fall of 2009.

Sweet Home Peer Court handled 49 cases in the 2010-2011 session. Student volunteers assessed Community Service and Sweet Home PD Work Crew in two-thirds of those cases processed. This resulted in 83 hours of Community Payback Service and 28 hours of SHPD Work Crew. Some of the projects included; Assisting the U.S. Forest Service with clearing ivy from the hillsides at Sankey Park, clearing trails for the Foster Lake Trail Project, spreading bark dust, pulling weeds and picking up cigarette butts in downtown. Peer Court currently has 9 Junior High and High School student volunteers. Of the current student volunteers, 4 came through Peer Court themselves and decided to remain as an active volunteer once their sanctions were complete. Their duties include, Judge, Presenter, Court Clerk, Bailiff and Juror.

JUVENILE WORK CREW

The duties of the work crews continue to expand. Work crews have started to work with several area groups to assist with brush clearing and ground preparation for beatification projects.

Peer Court expanded its sanctioning abilities and utilized the offering of SHPD Work Crew versus Community Service. Jurors make the decision as to which type of service would be better for the youth and be a better deterrent. Youth do local projects as sanctioned by Peer Court. A youth can be sanctioned to a maximum of 16 hours work crew. When parents are asked their opinion whether their child should receive community service or work crew—most opted for work crew.
